The following correspondence speaks for itself:

TREASURY DEPARTMENT, STATE OF FLORIDA,
COMPTROLLER'S OFFICE,
TALLAHASSEE, December 31, 1901.

Hon. W. S. Jennings,

Governor of the State of Florida,

Tallahassee, Florida:

SIR:—A careful review of the financial condition of the State is a source of congratulation to the people of the State.

The appropriations made by the Legislature at the regular session of 1901 for the two years from July 1st, 1901, to July 1, 1903, to be paid from the General Revenue Fund, exceed those made for the two previous years by more than \$320,000.00. This would necessitate an increase in the tax levy, if relief could not be found in an increase of revenue from other sources than taxation, and in a reduction of the current expenses of the State.

In refunding the State Bonds heretofore bearing 6 and 7 per cent. interest in 3 per cent. bonds, there will be an annual saving of more than \$30,000.00.

The deficiency in 1900 of \$35,000.00 in maintenance of the insane is not likely to again occur, nor will we in the ordinary range of probability be called upon for over \$22,000.00 for the relief and protection of a fire stricken portion of our State.

The annual expenses attending tax sales have been greatly reduced, and all expenses have been curtailed to the lowest possible point consistent with safe administration.

The total revenue producing property for which taxes can be collected is increasing and will be over a half-million dollars larger this year than last.

1902

The receipts from licenses and other smaller sources not derived from tax levies are steadily growing, and while the balance in the General Revenue Fund is somewhat smaller than it was a year ago, nearly all of the very extraordinary appropriations for the last six months of 1901 have been met, and there is still a balance of \$190,482.12.

The appropriation for the Capitol improvement will require very little more than the expense of a Legislative session, and as both will not have to be met the same year, there is an opportunity to give some relief to the taxpayers.

The law provides for a levy of 3 mills for general revenue purposes and authorizes the Governor to reduce the same as low as he may deem advisable.

In view of the facts above stated, I earnestly recommend for your consideration that the 3 mills authorized for general revenue purposes by the Legislature be, by Executive order, reduced to $2\frac{1}{2}$ mills for the year 1902.

Yours respectfully,

A. C. CROOM,
Comptroller.

EXECUTIVE DEPARTMENT, STATE OF FLORIDA,
TALLAHASSEE, January 8, 1902.

Hon. A. C. Croom,
Comptroller of the State of Florida,
Tallahassee, Florida:

MY DEAR SIR:—I have the honor to acknowledge the receipt of your communication dated December 31, 1901, in reference to the financial condition of the State at the close of the year, and note that you find from a general review of the financial condition that, notwithstanding the extraordinary appropriations made by the Legislature at the regular session of 1901, to be paid from the general revenue fund, which exceeds those made for the two years

previous upwards of \$320,000, for the purpose of employment of Supreme Court Commissioners, for constructing substantial buildings and in improving facilities for the higher education of the youth of our State, improving public buildings, state institutions, the Capitol building, for the relief and protection of the fire-stricken city of our State, and deficiencies, all of which were wisely made to meet the demands of the progress of our rapidly growing State, the tax rate to meet the expenses of the State government for the year 1901, can, if so directed by me, be reduced from 3 mills as provided by law, to $2\frac{1}{2}$ mills.

I beg to assure you that it is a source of much gratification that this condition is found to exist, which has been accomplished by the successful management of the affairs of State by the Administrative officers.

After the consideration of your report and recommendation, I have decided to reduce the tax rate from three (3) mills, as provided by law, to two and a half ($2\frac{1}{2}$) mills, and you are hereby authorized and empowered to direct the tax assessors to levy a two-and-a-half ($2\frac{1}{2}$) mill tax on the real and personal property of the different counties for the year A. D. 1902, to be appropriated for the current expenditures of the State and for the interest on the bonded debt.

I have the honor to remain,

Yours with much respect,

W. S. JENNINGS,
Governor.

Report of the Comptroller.

TREASURY DEPARTMENT, STATE OF FLORIDA,
COMPTROLLER'S OFFICE,
TALLAHASSEE, FLA., January 1, 1902.

Hon. W. S. Jennings,
Governor of the State of Florida:
Tallahassee, Florida.

SIR:—I have the honor herewith to submit my report of the transactions of the Comptroller's Office for the year ending December 31st, 1901.

The General Revenue Fund, from which all appropriations are made, is in a very satisfactory condition.

On January 1st, 1901, the balance in the Treasury to the account of General Revenue Fund, was by the Comptroller's last report, \$277,885.10, and on the 31st day of December, 1901, although the appropriations for the year were \$156,808.37 in excess of the ordinary expenses, it was \$190,482.12.

The assessed valuation of property for the year 1901 will exceed that of 1900 by over \$800,000.00, and this in the face of the fact that all of the property that was assessed on the rolls of 1900, upon which the State held tax certificates, has been eliminated from the tax books of 1901. This being so, it is a reasonable conclusion that there is now less non-revenue producing property assessed than in previous years, and the per centage of collections during the year 1902 will consequently be greater than for previous years.

The revenue from license tax is increasing, as also that from the sale of fertilizer stamps, under the efficient management of the Commissioner of Agriculture.

A natural sequence of these conditions is that in all probability the revenue derived from the levy of 1902 will be greater than before, and will go a long ways toward making up the difference in the balance on hand between January 1st, 1901, and January 1st, 1902.

All these conditions tend to show the wisdom of the reduction of the millage of three mills, as authorized by the Legislature of 1901, to two and a half mills.

The General Revenue Fund of 1901 has been taxed to satisfy the deficiency in the maintenance of lunatics occurring in 1900 of \$35,000.00.

The interest account on the bonds of the State has been paid.

A call upon the General Revenue Fund for \$22,734.66 on account of the disastrous fire in Jacksonville, has been satisfied.

Extraordinarily large appropriations in excess of former years of over \$60,000.00 for educational purposes have been met. The expenses of a legislative session of \$62,966.46 have been paid, and numerous other drains upon the fund, by reason of increased or new appropriations, have occurred. Yet we find the balance to the account of the General Revenue Fund reduced to no very appreciable extent.

In addition to this, the bonds of the State bearing 7 per cent. interest to the amount of \$267,700.00 have been refunded in three single manuscript bonds bearing 3 per cent. interest, resulting in a saving of \$10,708.00 in interest account on the bonds refunded in 1901.

When the 6 per cent. bonds of 1873 are refunded next January in 3 per cent. bonds, it will result in a total saving of over \$30,000.00 annually in interest payments.

The expenses of the State Hospital for the Insane have been kept within the appropriation, although the inmates have increased from 600 to 639, and this without any curtailment of welfare and comfort of the unfortunate inmates

The transferring of the certificates from the custody of the State Treasurer to the Clerks of the Circuit Court of the counties, to whom I am indebted for able and competent and painstaking co-operation in the matter, has added largely to the facilities of redemptions by the owners of the lands, or the purchase of these certificates by other parties, and will eventuate in an increase of revenue therefrom.

The elimination of all lands from the tax books upon which the State held claims by reason of these certificates will save a large sum in tax sales and advertisement which was chargeable to and comes out of the General Revenue Fund, and the general curtailment of all expenses to the lowest limit consistent with the good of the service by your administration gives us every reason to think and believe that in spite of the extraordinary appropriations of the Legislature of 1901 for the two years from July 1901 to July, 1903, amounting to over \$320,000.00, that there will be no need of any increase of taxation over previous years, as recommended to you in my communication of December 31, 1901.

The condition of our State Banking Institutions evidences the growing prosperity of our State showing, as their reports do, an increase of resources of \$2,950,382.33, or nearly 100 per cent., in the last three years, and an increase of deposits for same period of over 100 per cent; the increase for the past year being greater than for any previous one.

The condition of the School Funds, Pension Fund and Fund for the maintenance of the State Board of Health, are all satisfactory, and with the help afforded the counties by the large increase of proceeds of hire of State Prisoners, which were for the past four years only productive of \$21,000.00 per year, but are now leased for the next four years for about \$150,000.00 per year, county taxes ought to be materially reduced and give still further

relief to the tax payers, and Florida should rank among the most forward States of the Union in the lightness of the burdens of taxation.

Very truly yours,

A. C. CROOM,
Comptroller.

RECEIPTS AND DISBURSEMENTS.
